Attachment to Preliminary Amendment dated December 21, 2001

Marked-up Claims 5 and 8

5. (Amended) The arrangement according to claim 1, wherein said module is a carrier for electronic components [(410a, 410b)].

8. (Amended) A backplane unit, preferably for point-to-multipoint transmission, for [structurally] structural and [electrically] electrical interconnection to a second backplane unit, between each backplane unit being located wiring and databus connectors, which allow plug-in and removal of a module, preferably under operation, each databus connector being connected to a driver and a receiver arrangement, each comprising output and input channels, said outputs being connected to said inputs, wherein between said output channels of the driver arrangement and the input channels of the receiver arrangement and outside said driver and receiver arrangements, a signal termination arrangement is arranged.
